

Press release

Berlin, 2 November 2020

The digitalPMRExpo 2020 is picking up speed

The **digitalPMRExpo 2020** on 24–26 November 2020 is picking up speed: More than 1000 participants as well as national and international exhibitors and media partners have already registered for the leading European trade fair for secure communication. Even though the physical fair in the exhibition hall will not take place this year, The **digitalPMRExpo** in 2020 offers visitors and exhibitors a platform to find out about the latest developments, further advance their business and expand their contact networks. Participation in the **digitalPMRExpo 2020** is free of charge.

Focus on mission-critical and security-critical broadband communication

The presentations on 24 November focus on the mission-critical and security-critical communication of the future. In his presentation, for example, Bernhard Klinger (Hytera Mobilfunk) looks into the suitability of commercial networks **for mission-critical broadband services**. He reviews the results of a study by the European Commission, addresses the shared use of commercial networks and reports on the first project experiences in the field of public safety. Finally, the presentation addresses the requirements of businesses for mission-critical or business-critical broadband networks.

PMeV board member Axel Kukuk (Motorola Solutions) talks about **mission-critical 5G**. He analyses market and customer requirements, discusses the advantages of 5G and considers the possible entry into 5G with 4G/LTE. He also addresses the availability of the essential broadband spectrum in Germany. In a presentation in English, Harald Ludwig (Arico Technologies) speaks about the topic of 'Mission-critical testing: the **MCX plug tests**'. Ludwig presents the motivation and background behind mission-critical plug tests and explains what is tested and how. He discusses previous MCX plug tests and outlines plans for the future.

The BDBOS President opens the second day of the digital fair

The second day of the fair, 25 November, will be opened by **Andreas Gegenfurtner**, President of the Federal Agency for Digital Radio of Security Authorities and Organisations (Digitalfunk der Behörden und Organisationen mit Sicherheitsaufgaben (BDBOS)). Subsequent presentations also include the following topics: Security-critical communication of the future, The Smart Way of TETRA and control centre communication "made in Germany". On 26 November, the final presentations will focus on business messaging and DMR Tier III (Features & Case Studies).

Time frame for the presentations programme and digital exhibition

The **digitalPMRExpo 2020** presentations programme extends over all three days of the digital fair. This time allocation opens up a large time window for participants to visit the exhibitors' digital stands. With just a few mouse clicks, participants can switch between exhibition stands and the exciting presentations programme.

PMRExpo, the leading European specialist trade fair for the Network for Secure Communications, is taking place for the 20th time. Since 2009, it has taken place at the Koelnmesse, the trade fair location in Cologne. A

substantial number of national and international exhibitors are represented, including manufacturers, users and operators of professional mobile radio systems. PMeV - Network for Secure Communications is the main sponsor of PMRExpo. The event is hosted by EW Medien und Kongresse GmbH of Berlin. For more information and registration, please visit: www.pmrexpo.de

***PMeV** is a network of experts for mission-critical and security-critical communications solutions in mobile professional mobile radio systems. The network's members are manufacturers, system and application providers, network operators, users, consultants as well as specialists and experts. The aim of PMeV is to further develop the PMR market in Germany. It showcases the significance of PMR solutions for businesses and the economy and influences the political and regulatory conditions for the use of professional mobile radio systems. As a leading key expert for PMR in Germany, the association offers a dedicated forum for a neutral, manufacturer-independent dialogue at eye-level with market partners, politics as well as with the authorities and institutions. In addition, PMeV offers manufacturers, users and decision makers a neutral dialogue platform to evaluate technologies and discuss the opportunities and risks of technical solutions and concepts. PMeV promotes standards and actively contributes to their further development to meet the demands of the German market.*

***EW Medien und Kongresse GmbH** from Berlin is a leading information supplier for the energy and water sector in Germany and provides current sector knowledge across all media from a single source. In line with our motto of 'Knowledge is our Energy', EW strives every day to compile and present the most important information relating to this sector. In so doing, our focus is on quality, currency and practical usefulness. Thanks to its closeness to the Federal Association for the Energy and Water Industry (BDEW), EW can respond quickly to current political and legal developments. EW also organises events on PMR issues, e.g. the PMR Info Day for utilities, a specialist conference on emergency services, events related to emergency and crisis management and, since 2013, the PMRExpo.*
